

The Only 5 STAR*
Support in EDA

Customer Support

D A T A S H E E T

FEATURES:

- Software enhancements to bring you the latest improvements in product functionality, usability, and performance
- SupportNet for rapid, secure access to online support
- Technical support backed by an award-winning support organization

How Mentor Graphics Supports You

Increasingly complex designs, shorter product life cycles, thinner margins, faster time to market, global design teams. The challenges to your design productivity continue to grow. It takes more than just innovative design tools to be successful. Stellar customer support that stands behind the tools is just as critical.

At Mentor Graphics our high performance tools are backed by an award-winning global customer support organization that is leading the way in EDA software support. A support contract with Mentor Graphics ensures success with our software by offering the following advantages.

- Regular product enhancements and new releases to keep worldwide design teams on track and on time
- Expert technical support to help designers resolve issues rapidly
- SupportNet's comprehensive online support for 24 x 7 access to solutions

Mentor Graphics Customer Application Engineers (CAEs) work side-by-side with product development teams to gain early understanding of upcoming releases and to offer insight into common technical problems. Unlimited access to our CAEs helps your design teams around the world accelerate product development and increase product quality by providing rapid, expert response to technical issues for the complete family of Mentor Graphics products.

From frequent product enhancements and new releases to timely answers through SupportNet, we provide fast response and highly effective solutions. We work hard so you can be as productive as possible. Visit SupportNet today to learn more.

**Focus on customer needs has earned Mentor Graphics the industry's only five-time receipt of the Software Technical Assistance Recognition (STAR) Award which recognizes superior levels of technical support to customers.*
